

I am requesting that the FCC reject the petition 04-160. I am paying for the services of XM radio and fell that I am entitled to all the services provided by XM.

I fell that the NAB is totaly out of line requisting this pititon. I subscibed and paid for this service to get away from the poor quilty of FM and AM radio. I am enttiled to this service and expect the FCC to agree witht the sbscribers of XM radio.

Sincerly
